

MULTI-STORY

SUBMIT A SKETCH and let our technical experts design a system just for you! There are 3 ways to submit:

1. Save to your computer, fill out page 2, then re-save and EMAIL the attachment to fireplacesales@onlinestores.com
2. Print out this form, draw your pipe system, then fill out page 2 and FAX to 866-509-1670 or scan & EMAIL to:
fireplacesales@onlinestores.com
3. Print, complete and mail it to us at :

Online Stores, LLC
1000 Westinghouse Drive, Suite 1
New Stanton, PA 15672

A quote will be emailed back to you within 48 hours.

Installation Planning Worksheet

1. **Fuel Type** _____ (wood stove, pellet stove, chimney relining, etc.)
2. **Diameter Required** _____ (refer to manufacturer's instructions from the appliance you are installing)
3. **How Do You Plan to Install** _____ (Through-the-wall, through-the-ceiling - flat ceiling or cathedral ceiling?, Offset installation, chimney relining?)

****If venting through the wall please complete:**

How far away from the wall is the center of your stove pipe? _____

What is the thickness of your wall? _____

4. **Do You Currently Have Chimney Pipe** _____ (What brand? What diameter?)
5. **Do You Have a Preference of Double Wall or Triple Wall Chimney Pipe** _____
6. **Do You Have a Preference of Single Wall or Double Wall Stovepipe** _____
(How close to a wall (ceiling) do you need to be? Minimum of 6" with double wall, 18" with single wall)
7. **What material is your roof covered with?** _____ (Shingles? Metal?)

8. Measurements (We need the following measurements to calculate a quote for you)

Ceiling Height _____ (Measure from the ceiling to the floor in the room that you are installing appliance)

Appliance Height _____ (Measure the height of the appliance you are installing.
Does your appliance vent out the top or out the back?)

Number of Stories _____ (Measure from the ceiling to the floor for every story the chimney will be going through)

Attic Height _____ (Measure from the roof to the bottom rafter)

Roof Pitch _____ **Ceiling Pitch (if cathedral)** _____

What is the horizontal distance from the peak of your roof to the chimney pipe? _____

Abnormal Specifications (Any offsets – refer to offset charts - <http://www.northlineexpress.com/elbow-offset-charts.html>

any other information we may need) _____
