

Adjustable Log Rack Instruction Manual

SUGGESTED TOOLS: Screwdriver (Screws not Included)

STEP 1: Determine desired length of Log Rack. Cut two 2" x 4"s to the desired length to use as two (2) horizontal supports.

STEP 2: Carefully remove log rack ends from the package. The package will contain two (2) log rack ends.

STEP 3: Slide the two 2" x 4"s through the upright log rack ends.

STEP 4: If desired, secure the upright log rack ends to horizontal supports with hardware (not included).
